Subject: RE: Class of 62 Scholarship

Hi John,

I am so sorry for the late response, but I've been super busy trying to finish up my Senior year and waiting for May 12 (graduation) to arrive. Ah, it's so exciting and nerve wrecking at the same time! I will be graduating with an English major and a minor in Spanish and Educational Studies and a 3.79. Also, I found out that I won Quintessential Student for our Senior class. Basically, Quintessential student is someone the Senior class nominates and then votes to speak on behalf of the class at graduation. As of right now, I am not quite sure what I want to do next. I think I want to come back to Baltimore and possibly volunteers in the school to get a little bit of experience before applying to be a full-time teacher. I just want you all to know that the Class of 62 Scholarship has really helped me pay for books, pay for my flight to Argentina, pay for tuition and many other things over the past four years. I thank you all for the scholarship because it hasn't just provided me with financial support, but also with the support I need to believe I could graduate from a 4 year college!

Sincerely, Hortensia Montoya
